The Python Software Foundation is an organization devoted to advancing open source technology related to the Python programming language.
“The Mission of Python Software Foundation is to promote, protect, and advance the Python programming language; and to support and facilitate the growth of a diverse and international community of Python programmers”
The EuroPython Society’s mission is to further the use of the programming language Python in Europe and organize events centered around the programming language Python to support this.
We Support The Python Community through...

Grants
So far in 2018 we have approved $240,000 USD in grants (through September) to recipients in 45 different countries and we’re on track to meet or beat our total of $271,138 from 2017.

Infrastructure
We support and maintain python.org, The Python Package Index, Python Documentation, and many other services the Python Community relies on.

PyCon US
We produce and underwrite the PyCon US Conference, the largest annual gathering for the Python community. Our sponsors’ support enabled us to award $118,543 USD in financial aid to 143 attendees for PyCon 2018.
